DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

(1) Elect from one of these distinct Species:

Species I: A fishing rod holder as shown in Figures 1, 2, and 5.

Species II: A fishing rod holder as shown in Figures 3 and 4.

Species III: A fishing rod holder as shown in reference no. 12a of Figure 6.

Species IV: A fishing rod holder as shown in reference no. 12b of Figure 6.

Species V: A fishing rod holder as shown in reference no. 12c of Figure 6.

(2) Further elect from one of these distinct Species:

Species A: A fishing rod handle as shown in reference no. 24a of Figure 7.

Species B: A fishing rod handle as shown in reference no. 24b of Figure 7.

Species C: A fishing rod handle as shown in reference no. 24c of Figure 7.

(3) Further elect from one of these distinct Species:

Species 1: A fishing rod as shown in reference no. 20a of Figure 8.

Species 2: A fishing rod as shown in reference no. 20b of Figure 8.

Species 3: A fishing rod as shown in reference no. 20c of Figure 8.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there is no generic claim.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. A telephone call was made to Attorney Kent on 6/23/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
